

ONLINE: Classroom Management for Positive Behaviors

*“I enjoyed this class!
It really gave me additional insight into
behavioral management.”*

– Alan J.

As educators, we want to be able to ensure that all students have access to a positive school environment that is conducive to learning. Positive Behavior Management presents an instructive approach that ensures creating this environment with efficient behavioral practices and interventions in order to support academic success. This concept uses prevention to reduce new problem behaviors from occurring and eliminates the problem behaviors that already exist.

The evidence-based Positive Behavior Intervention Solutions (PBIS) practices introduced in this course will help teachers eliminate any triggers related to problem behaviors. It will also instruct teachers how to monitor and acknowledge students' positive behaviors in the classroom. Further, divided into three tiers of support, the Positive Behavior Management model presented in this course will allow teachers to follow a proactive approach to establishing the support, social culture and environment needed to teach and reinforce expected behavior in all students, thus making their classroom a positive learning space.

Standards:

This course aligns to all of the INTASC Standards including Learner Development, Learning Differences, Learning Environments, Content Knowledge, Assessment, Planning for Instruction and Instructional Strategies.

The course also aligns to the McRel Teacher Evaluation Standards including Teacher Leadership, Diverse Learners, Teachers Know Content and Teachers Facilitate Learning.

Each self-study PD course from Professional Learning Board includes:

- **Convenient access** anytime, anywhere, any device
- Interactive **online** textbook
- Implement **practical suggestions** immediately
- Demonstrate comprehension with **quizzes** and checks for understanding
- Print **certificates** of completion
- Easily assign courses to align with each teacher's **personalized PD needs**
- **Integrate** with school and district-wide initiatives
- **Low cost solution for all courses, all teachers, all school year**
- **Reports** for school administrators

ONLINE: Classroom Management for Positive Behaviors

Course Outline

LESSON 1

A Positive Classroom Climate

- Understanding positive behavior, and the need to teach it
- Behavior management, and promoting positive expectations
- Six-step guide to implementing PBIS in schools
- Classroom strategies for enhancing positive behaviors
- Strategies to resolving behavioral incidents, and student specific interventions
- Introducing the PBIS three-tiered framework

LESSON 2

Primary Prevention

- Positive approaches
- Understanding the principles that govern implementation
- Guide to implementing primary prevention in schools
- School-wide behavior management strategies
- Involving parents, and understanding their role

LESSON 3

Secondary Prevention

- Understanding Secondary Prevention
- Key features of Tier 2 implementation and the student selection
- Understanding Functional Behavior Assessment
- Six-step guide to implementing the secondary prevention in school
- Practical examples of Tier 2 interventions

LESSON 4

Tertiary Prevention

- Understanding Tertiary Prevention
- Key features of Tier 3 implementation
- Guide to implementing Tier 3 interventions
- Assessment strategies: surveys, evaluations and interventions
- School-Wide Information System (SWIS) apps
- Tier 3 positive behavior support plan
