

ONLINE: Formative Assessment

*“Finally, formative assessments are easily explained.
Thank you.*

Your information on rubrics was amazing.” – Lisa L.

Three years ago Brian Creasman became principal of a “low performing” high school and was confronted with these two questions. A high school classified as “low performing” obviously is not a title any teacher, administrator, student or parent wants for their school.

Out of everything (curriculum alignment, effective instructional strategies, etc.) Mr. Creasman learned that for an assessment to be effective, it should also be formative. Keep in mind that effective formative assessments result in instruction that meets the needs of each student. Formative assessments allow teachers to respond to the needs of the student quickly, however more importantly it allows the student to shape instruction. The formative assessment program there continues and is constantly changing for the better.

Take the next step. Learn about and implement formative assessments in your school to discover and demonstrate for yourself, your students and your community what happens when *a school moves in this direction and you know students are truly learning.*
