

ONLINE: Videos in the Classroom

Want to incorporate videos in your classroom but not sure how?

Every teacher wants students to be enthusiastic about learning. Sometimes it is a challenge to capture students' interest as the topic may be complex or difficult to understand. Videos can do wonders to pique students' interest and engagement.

Students retain information faster, grasp concepts more rapidly, and become more enthusiastic about learning when videos are used in the classroom. This course encourages teachers to use of videos already available online and learn to record, edit, create, embed and share videos.

The course presents guidelines and practical tips on choosing the right videos to align with learning objectives. With the templates and real-life examples provided in this course, teachers find it easy to connect complex lessons to real-life scenarios. Resources help teachers to conduct post-viewing activities that ensure videos are not just the 'interesting' part of the lesson, but are used as a tool to enhance learning and reflection.

Standards:

This course aligns to all of the INTASC Standards including Learner Development, Learning Differences, Learning Environments, Content Knowledge, Assessment, Planning for Instruction and Instructional Strategies.

The course also aligns to the McRel Teacher Evaluation Standards including Teacher Leadership, Diverse Learners, Teachers Know Content and Teachers Facilitate Learning.
